### About OneSource Interactive

OneSource Interactive is a turnkey Managed Digital Services (MDS) provider. Our complete Managed Digital Services center around every aspect of self-service kiosks, interactive and passive digital signage & digital directories, mobile application integration and consulting services. OneSource leverages many years of extensive self-service and digital signage industry experience and using this experience, we assist our clients through every phase of a project while they focus on their core business. By relying on OneSource to design, develop, deploy and manage the best turnkey interactive solutions for their specific needs our clients, see increased productivity, enhanced user experience, reduced costs and better utilization of resources and technology.

### Why Is Turnkey Important...

With today's business landscape becoming increasingly more competitive and businesses vital need to reach customers, visitors and employees in new and innovative ways, it has never been more important to have a partner you can trust for all your interactive needs.

Our turnkey interactive solutions enable you to shine light on your products and customer enabled applications wherever, whenever and however you choose and what is best for your organization. Customer convenience, overall user experience, market penetration, competitive advantage and lower cost delivery are only a few of the benefits realized from using customer centric interactive products.

OneSource's product offerings are ideal for virtually every vertical market, including but not limited to: airline, corporate, education, entertainment, exhibition, financial, gaming, government, healthcare and assisted care, hospitality, human resources, restaurant, retail and transportation markets.

### Managed Digital Services (MDS)

OneSource provides complete turnkey Managed Digital Services (MDS), including managed device services, application hosting and digital device monitoring, technical and field based services. We can streamline the process for customers getting started on their own in-house hosting efforts. These services are segmented into three separate and unique offerings: Hosted Digital Services (HDS) or Software as a Service (SaaS), Remote Monitoring Services (RMS) and Technical Services & Support.
